Australianism Not  
Foreign-ism!

*How about we take Australia

Australia – Australian?*

**We want to celebrate being Australian because we have only one country. We aren't hyphenated Aussies. We won't tolerate being spat on by media, by educators and professional ethnics.**

We want places at Australian universities for Aussies, not for aliens with dollars!

We want jobs for Aussies at Australian rates of pay, not for contract labourers from overseas who take slave wages.

We want Aussie girls to be able to walk safe at night without gangs with odd religions and cultures deciding that rape is just a bit of fun.

We want those who peddle hard drugs on Aussie youth to get their necks stretched.

We want to build a youth movement everywhere Aussie youth work, study and enjoy life. Australia belongs to us. We are taking it back!
